

Options for Animals

College of Animal Chiropractic's

Continuing Education Seminar Series

The Sacropelvic Regions Influence on Engagement, Lameness, Micturition, and Reproduction. (A.K.A. Advanced Module 1) March 19-21, 2010

Classes Taught by Dr Dennis Eschbach (E), Dr. Heidi Bockhold (B), Dr. Patty Glover (G) and Dr. Lisa Busko (B). This Course is Approved by the Kansas Board of Regents. Application has been made to the AVCA and IVCA for 22 Hours of Continuing Education Credits.

The CE/CPD Courses are designed to fulfill the needs of the practicing Animal Chiropractor. Too many times we feel the need for just 'one more tool', or 'an easier way', or even the thought of 'there has to be more'. You're instincts are right! At Options for Animals we appreciate your skills as an accomplished Animal Chiropractor; we also respect and understand your practice frustrations.

This course emphasizes the overall influence of the Sacropelvic region. Proper function of this region effects many important functions, from the generation of energy for movement to the neurological control of micturition.

Come Join Us for Some Work and Fun! You'll Be a Better Doctor For It!

Friday (5.5 Hours)	1:30pm - 7:00pm	Saturday (10 Hours)	8:30am - 7:30pm
